Clients for Life

Analyze your current "greenness," which can help you make renovation decisions, and estimate everything from wallpaper and tile to insulation and ventilation.

Green Analysis

[Energy Star Home Energy Yardstick](#)

"Compare your household's energy use to others across the country."

[Home Energy Saver](#)

"Determine the energy consumption of a home and find ways to reduce it."

[Clean Energy](#)

"How clean is the energy [you] use?"

[Household Emissions Calculator](#)

"Get a rough "ballpark" estimate of your personal or family's greenhouse gas emissions."

Calculators and Estimators

[Concrete Calculator](#)

"Calculate the number of cubic yards and concrete bags needed to complete your project."

[Tile Estimator](#)

"Design the room you would like to tile."

[Wallpaper Calculator](#)

"Estimate the number of wallpaper rolls you need to cover any or all the walls in a room."

[Attic Ventilation Calculator](#)

"Find the ventilation requirements of your home."

[Insulation Calculator](#)

"[Find] the most economic insulation level for your new or existing home."

[Room Heating Calculator](#)

"Determine the most efficient and economical way to heat a large enclosed area."
